J&S Valve

WBENC
WOMEN'S BUSINESS ENTERPRISE NATIONAL COUNCIL

A WOMEN OWNED BUSINESS ENTERPRISE

MANUFACTURING QUALITY VALVES SINCE 1993!

NATIONAL AND REGIONAL CERTIFICATIONS

WHAT IS M/WBE?

All firms seeking MBE, WBE or MWBE certification must be independently owned, operated and controlled by minority members and/or women. The ownership must be real, substantial and continuing, and the minority members and/or women must exercise the authority to independently control the day-to-day business decisions as is the case with J&S Valve, Inc.

THE BENEFITS

- The Small Business Administration assigns the NAIC Code 332911 to valve manufacturing companies.
- NAIC Code 332911 allows 100% of the cost of valves you purchase from J&S Valve applied toward the diversity goals for your project.
- NAIC Code 332911 means that what ever you spend with us can be transferred in full if you choose to purchase J&S Valves through a reseller/distributor or supply house because we are the manufacturer.
- NAIC 332911 means that J&S Valve M/WBE eligibility is based on the number of employees instead of revenue because we are a manufacturer.

CORPORATE LEADERSHIP

Stacie Bolender has been a leader in the valve industry since 1993. As CEO of J&S Valve, Stacie is a critical thinking leader who is strategic in her business planning. She guides the company by implementing sound business strategies which incorporate the most up-to-date technical systems which allows for growth and achievement of corporate goals. She has a keen sense of corporate vision and insists that vision be achieved. She utilizes sound financial practices to move the company forward and her management team are successful with setting and achieving corporate milestones by providing steadfast leadership.

WE OFFER VALVES FOR MANY TYPES OF APPLICATIONS

- Water Lines
- Water Transmission Lines
- Water Treatment Plants
- Wastewater Treatment Plants
- Large Diameter Water Lines
- Pumping Stations
- Water Distribution
- Water Storage
- Tapping
- Reuse Water
- Wastewater Collections
- Desalination Plants
- Environmental Side of Industrial Plants
- Chill Water Systems
- Drainage Systems
- Highway Construction
- Marine Construction

MANUFACTURING VALVES AS LARGE AS 108"

Gate Valves AWWA Resilient Seated & Metal Seated
Butterfly Valves Resilient Seated, Lug, Wafer and Flange
Plug Valves Metal Seated
Ball Valve Metal Seated
Plunger Valves Energy Dissipating Control Valves
Pump Control Valves
Check Valves Swing Check Valves with Air/Oil Cushion, Ball Check Valves, HedFlex Duckbill Check Valves, Wafer Swing Check Valves

* Inventory sizes Thru 48" Available for Quick Shipment

CAPABILITIES

- Project Management
- Application Engineering
- Value Engineering
- Valve Site Surveys
- Valve Evaluations
- Valve Troubleshooting
- Valve Automation
- Valve Modification
- Valve Retrofits

SERVICE SPEAKS FOR ITSELF

On behalf of The City of Cleveland Water Division (CWD), I personally would like to express CWD's gratitude and appreciation for your personal assistance as well as J&S Valves outstanding service response during our emergency repair at the Crown Water Plant. The 30" J&S Valve Gate Valve was ordered Friday and completed per CWD specifications, including the built-in 4" bypass valve assembly, then delivered the following Monday for installation.

Several of our people have remarked at the great physical appearance of the valve. I am pleased to say that after installation, the valve operates flawlessly as its appearance and specifications suggested it would.

Please express our appreciation to J&S Valve for their outstanding product and service. It is good to know that we have such conscientious and valued suppliers that we can count on for both our everyday and critical needs.

Leonard J. Sedlacek,
Project Engineer
City of Cleveland, Ohio
